## DETAILED ACTION

### *Election/Restrictions*

This application is a 371 of PCT/US04/13258.

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group, I claim(s) 1-14, 15, 16-21, 25-28, 30, drawn to an isolated polynucleotide encoding a polypeptide cellulase, expression construct, vector, host cell and process for producing polypeptide, polypeptide cellulase and a method of treating wood pulp by using said cellulase.

Group, II claim(s) 22, drawn to a recombinant host cell comprising altered (deletion, insertion or other alteration) cellulase gene resulting an inactivated gene and no cellulase production.

Group, III claim(s) 1-3, and 23-24, drawn to an antisense oligonucleotide complementary to mRNA that encodes said cellulase.

Group, IV Group, V claim(s) 29, drawn to a feed additive comprising said cellulase.

Group, V claim(s) 31-32, drawn to a method of converting biomass to sugar by using said cellulase.

Group, VI claims 33, drawn to a method of producing ethanol by using said cellulase.

Group, VII claim(s) 34, drawn to a method of identifying novel enzymes.

Art Unit: 1652

2. Since, SEQ ID NO: 2 and 3 are unique and prior art does not teach the same, therefore, 4 different groups, such as 1) polynucleotide, 2) polypeptide, 3) a method of producing the polypeptide and 4) a method of use of the polypeptide, are grouped in Group I.

3. The methods of Groups V-VII do not have unity of invention with each other as each method comprises unrelated steps, use different products and produce different effects.

37 CFR 1.475 does not provide for multiple products and/or methods within a single application. Therefore, inventions of Group I - VII lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

The examiner has required restriction between product and process claims. Where applicant elects claims directed to the product, and a product claim is subsequently found allowable, withdrawn process claims that depend from or otherwise include all the limitations of the allowable product claim will be rejoined in accordance with the provisions of MPEP § 821.04. **Process claims that depend from or otherwise include all the limitations of the patentable product** will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. Amendments submitted after final rejection are governed by 37 CFR 1.116; amendments submitted after allowance are governed by 37 CFR 1.312.

In the event of rejoinder, the requirement for restriction between the product claims and the rejoined process claims will be withdrawn, and the rejoined process claims will be fully

Art Unit: 1652

examined for patentability in accordance with 37 CFR 1.104. Thus, to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103, and 112. Until an elected product claim is found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowed product claim will not be rejoined. See "Guidance on Treatment of Product and Process Claims in light of *In re Ochiai*, *In re Brouwer* and 35 U.S.C. § 103(b)," 1184 O.G. 86 (March 26, 1996). Additionally, in order to retain the right to rejoinder in accordance with the above policy, Applicant is advised that the process claims should be amended during prosecution either to maintain dependency on the product claims or to otherwise include the limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.**
